DAY-3

Date
Page No.

## :- Sorting Data :-

(#) Their is two options for sorting technique in excel (Tab)

(I) Home → sort & filter option

(II) Data (Tab) → sort option

(#) S-1 select entire columns which you are going to "sorted".

S-2 Data (Tab) → press (A↓Z) → warning pop-up

- Expand the selection (✓)
- continue with the current selection

S-3 → then go for Expand the selection.

(#) sort

thenby : it is used for chunk sorting (for sort inside sort wrt other columns)
