DAY-15

:- SUMIF & COUNTIF FORMULA :-

✡ it comes under statistical formula becoz by using this we create a statistical report.

(i)

= COUNTIF(Range, criteria)

→ Syntax

= COUNTIF(C1:C11, 92)

KIM :-

To fix formula press F4

(Cr) "Fix Reference" & "Absolute reference" are same. Relative Reference

(ii) SUMIF :-

=SUMIF(range, criteria, [sum_range])

→ Syntax

= SUMIF(C1:C11, 47, D1:D11)

column column

Date
Page No.

Note :-

To select All items / Data in a single column just press [ctrl + shift + ↓].

(#)

If Formula does not work properly even we write the complete formula. then look for [Clear] option in [Home] tab.

(#)

Roughly idea :-

(I.) COUNTIF (Range, criteria) it is generally used for "Textual data".

(II.) SUMIF (Range, criteria, [sum-range]) it is generally used for "Numerical data" OR Number".
